# Corporate Events for incredible Clients

We have run simply 100's of events in Asia for some of the very best companies in the world. So for your next event in Asia you now know where to come!

# It's all about Unique Experiences!

Asia has an endless array of incredible experiences for companies to choose from in order to incentivise your staff and management.

Not only this but many of the options that we are able to offer do not come with a high price tag, meaning that trips don't have to be a one off for those special occasions and can be used as a more regular incentive scheme.

From beautiful hotels, innovative event solutions, fabulous cultural trips, delicious food and drink as well as endless activities to keep your staff entertained makes Asia the perfect solution for all your incentive travel needs.

# Bike Against the Clock

'Bike against the clock' is a new and unique team building challenge on two wheels.

Your teams' mission, if you choose to accept it; is to orient your team around Siem Reap as fast as you can and complete the challenges at each of the check points before racing to the finish line.

This team orienteering challenge requires many different skills sets to be victorious. As even though it is a race against the clock, teams must also negotiate the team challenges at each check point that require brain power, patients, skill and of course team work as each team member has to contribute to each set challenge.

'Bike against the clock' is great for groups both large or small and perfect for all ages young and old.

# The 'Great' Race

Operating very much like the now famous 'Amazing Race' TV show 'The Great Race' is a fun filled team activity that requires group participation and team work.

Teams travel by tuktuk (remork) throughout the town and into the surrounding countryside offering a unique glimpse of Siem Reaps less touristy attractions and a taste of real life Cambodia.

Each race will include up to 8 challenges depending on time allowed; some resemble the TV show but all are uniquely Cambodian.

The challenges range from mental to physical and so require different skill sets, catering for a range of personalities and strengths. There are also a number of CSR focused activities, ensuring that the local communities also benefit in some way. The race is presented just like the TV show with a 'Game Master/Presenter', glossy 'Great Race' clue cards, flags and a Pit Stop mat that the winning team can keep. The challenges are lots of fun and designed to test participants.
